

IN THE SPECIFICATION

Please replace the paragraph starting on line 6 through line 15, page 4, of the specification with the following text:

The cartridge 20 may be constructed of two separate pieces that are positioned together within the image forming device. In one embodiment, the developer section 90 comprises the first piece, and the cleaner section 29 comprises the second piece. One embodiment of a two piece cartridge is disclosed in U.S. Patent Application Serial No. 10/804,628 [/] Attorney Docket No. 4670-201 entitled "Movable Subunit and Two Piece Cartridge for Use in an Image Forming Device", assigned to Lexmark International, Inc., and herein incorporated by reference in its entirety. In another embodiment, the cartridge 20 is a single piece having a construction similar to laser printer Model Nos. C750 and C752 available from Lexmark International, Inc., of Lexington, Kentucky.

Respectfully submitted,

COATS & BENNETT P.L.L.C.
